EXPERIENCE

JASPER VAULT

Quantitative Trader (Research Assistant)

Singapore
Apr 2025 - Present

- **Automated order analysis workflow, reverse-engineered 2 main trading logic** based on order timing and profitability data from institutional clients to extract order placing strategies.
- **Developed Simulation Option-Placing System**, which can arbitrarily set order timings (discrete or continuous), order directions, tenors, and indicator parameters, finally generated order file.
- **Discovered 5+ quantitative signal combinations** of Bitcoin price, all **yielded more than 150% ROI** during back testing period, which directly enhanced the firm's option pricing models.
- Digged effective volatility indicators, **uplifted ROI of original volatility strategy by over 20%**.
- **Researched the correlation between specific market behaviours and Bitcoin price volatility**, which both validated key hypotheses from team leaders and debunked ineffective strategies.

LIONLINK INFORMATION CONSULTING SERVICES CO., LTD

Product Manager & CFO & Founding Member

Singapore
Sep 2024 - Present

- **Benchmarked over 50 domestic and international competitors** by analyzing service models, pricing strategies, and value-added offerings; identified pain points, and proposed a service focus on “**direct mentorship**” and “**high-quality essay content**” tailored to the most strategic customer segments.
- **Built a curated talent network of more than 30+ mentors** and connected applicants directly with relevant mentors; **supported 100+ clients** through the application process with highly personalized guidance.
- Led content marketing across WeChat, RedNote official and personal accounts **with 1,000+ total followers**; attracted target users through informative posts and case studies on application strategies and success stories.
- Hosted interactive webinars, virtual campus talks and live broadcast focused on application strategy and career planning, **drawing 500+ participants** and building brand credibility within key university communities.
- **Established a private corporate financial database**; monitored monthly profit and cash flow performance and delivered data-driven financial analyses and strategic recommendations to support executive decision-making.

BANK OF CHINA LTD. (NANTONG BRANCH)

Internship in Bond Underwriting (Investment Banking and Asset Management Centre)

Nantong, China
Jun 2023 - Sep 2023

- Visualized complex bond market trends and risk indicators using data visualization tools, enabling clearer communication with senior analysts and accelerating decision-making within the bond issuance team, which led to greater operational efficiency and responsiveness.

KPMG ADVISORY (CHINA) LTD. GUANGZHOU OFFICE

Internship in Financial Consulting (Strategy Advisory)

Guangzhou, China
Jan 2023 - Feb 2023

- Deployed web scraping tools to gather publicly available financial data and reports from multiple sources, automating data collection and allowing the team to quickly access real-time market information, increasing the scope and speed of research.

CITIC TRUST CO., LTD.

Internship in Trust Business (Trust Business Department)

Guangzhou, China
Jun 2022 - Sep 2022

- Employed financial report analysis to evaluate returns on real estate projects, integrating supervised machine learning model and financial time-series models to predict the financial performance of underlying assets and qualities of collaterals.
